

State Council Program Award

Winners

DATE: 4/27/22

STATE DEPUTY: Walter K. Wible, Jr. JURISDICTION: Michigan
(Signature)

In connection with the International Program Awards Contest sponsored by the Supreme Council office, the following state council winners have been named in my jurisdiction:

FAITH PROGRAM:

Council Number: 4090
Grand Knight to be recognized: Ted Miles Email: tedmiles123@gmail.com
Project Name: Seminarian Dinner Fundraiser

FAMILY PROGRAM:

Council Number: 3774
Grand Knight to be recognized: Donald Siegel Email: gk3774@mikofc.org
Project Name: Fundraiser for Baby Elliott

COMMUNITY PROGRAM:

Council Number: 695
Grand Knight to be recognized: Michael McCarthy Email: gk695@mikofc.org
Project Name: Covid Recovery - Welcome Back Mass/Cookout

LIFE PROGRAM:

Council Number: 11658
Grand Knight to be recognized: Ron Rabine Email: gk11658@mikofc.org
Project Name: Team J-Rex Crushing Hydrocephalus

This reporting form must be completed by the state deputy and forwarded to the Supreme Council office immediately following the state convention. Individual award entries must be forwarded to the Supreme Council office by June 1.

Team J-Rex - Crushing Hydrocephalus

State Council Program Awards

Entry Form

THIS REPORTING FORM MUST BE COMPLETED BY EACH COUNCIL AND FORWARDED TO THE STATE COUNCIL.
 (A separate reporting form should be completed for each program category.)

CATEGORY (MARK ONE): Faith Family Community Life

COUNCIL INFORMATION:

1 Council Number: 11658 Total Council Members: 235
 Grand Knight: Ron Rabine E-Mail: GK11658@mikofc.org

PROGRAM INFORMATION (complete all sections):

2 Program Title: Team J-Rex Crushing Hydrocephalus Program Date: 7/10/2021

Participation: $\frac{44}{\text{Members}} + \frac{133}{\text{Non Members}} = \frac{177}{\text{Total Participants}}$ $\frac{177}{\text{Total Participants}} \times \frac{8}{\text{Hours}} = \frac{1,416}{\text{Total Volunteer Hours}}$

Program Planning: $\frac{\$9,299}{\text{Costs}} \& \frac{47}{\text{Time}}$ Members Recruited: 3 Donations: \$1,135
Local Currency

3 Describe program in detail. Use additional paper if necessary. Supplementary material may be submitted along with the nomination. Accompanying materials can include letters, testimonials, news clippings, photographs, pamphlets, etc. Do not submit tapes, videocassettes, DVD's, display materials, films, etc., as they will not be considered in judging the nomination.

3a) In the space provided below, briefly describe the purpose and goals of this program. This section must be completed.

Hydrocephalus affects approximately 1 million Americans, in every stage of life, from infants to the elderly. 1 out of every 1,000 babies are born with hydrocephalus, making it as common as Down's Syndrome and more common than brain tumors. Hydrocephalus is the most common reason for brain surgery in children. There is no medical therapy to treat hydrocephalus. The only effective treatments are surgical (specifically failing shunts). We would like to bring attention to the need for researching shunts and help to reduce or eliminate failing shunts.

DO NOT SUBMIT THIS REPORT FORM TO SUPREME COUNCIL

**ENTRY MUST BE RECEIVED BY THE STATE COUNCIL
 TO BE ELIGIBLE FOR THE COMPETITION**

MAIL ORIGINAL TO: State Deputy or State Program Director

COPY TO: Council File

Available in electronic format at www.kofc.org

(continued on reverse)

3b) Whom does this program benefit?

Although we are focused on the children affected by this disease, hydrocephalus affects a wide range of people, from infants and older children to young, middle-aged and older adults. Over the last 50 years, there has been no significant improvement in hydrocephalus treatment and no progress toward a prevention or cure.

3c) What problem or need did this program resolve?

Hydrocephalus goes undiagnosed and untreated in younger adults. Hydrocephalus is an abnormal accumulation of cerebrospinal fluid (CSF) within cavities in the brain called ventricles. CSF is produced in the ventricles and in the choroid plexus. It circulates through the ventricular system in the brain and is absorbed into the bloodstream. This fluid is in constant circulation and has many functions, including to surround the brain and spinal cord and act as a protective cushion against injury. It contains nutrients and proteins necessary for the nourishment and normal functions of the brain, and carries waste products away from the surrounding tissues. Hydrocephalus occurs when there is an imbalance between the amount of CSF that is produced and the rate at which it is absorbed. As the cerebrospinal fluid builds up, it causes the ventricles to enlarge and the pressure inside the head to increase. A shunt allows the CSF to drain away from the brain. Research is essential. At the very least, we need better treatments, with more positive long-lasting term outcomes, and diagnostic tests that are accurate, cost-effective, and noninvasive. (aka, non-failing shunts)

3d) Why did the council select this program?

One of our Brother Knight's grandson was diagnosed with hydrocephalus at birth and the family has been doing fundraisers for the treatment of the disease affecting their family member. Insurance costs are extremely high, along with the financial, employment and mental impact to the family. While we were doing this event, we found out that we have 10+ families in our own Council who have a direct relative who is afflicted hydrocephalus.

3e) Describe the success of the program:

Our target goal was to raise \$5,000+ to donate to the research of hydrocephalus shunts for individuals, primarily in children. Our event was extremely successful, in that we raised \$9,000+ for this cause. The family was extremely happy with the outcome and the Hydrocephalus Association was very thankful for the donation.

Attest:

Walter K. White Jr.
State Deputy

2. Introduction Letter

Annually St. Hubert's Council #11658 hosts a golf outing specifically for a charity within our local area. The charity is evaluated for its unique contribution revolving around the mission of the Knights of Columbus.

Each selected charity is approved by our Grand Knight and is fully supported by all the Knights in our Council. Every year our chairman canvasses the Knights of our Council to find potential charities that may be a candidate for this annual outing.

This year's charity is for the research of shunts for children, and adults, that are afflicted with Hydrocephalus.

3. Overview of Project

In January of 2021, one of our Brother Knights asked for prayers for his grandson who was going into his 8th surgery for a failing shunt in his head. In speaking with our Brother, it was found that 6 of the other surgeries were also for a shunt that failed to drain the excess fluid from his brain. Our Brother's grandson's name is Joshua Sajor and he was born at 30 weeks and then diagnosed with Cerebral Palsy one week after birth. Shortly after, Josh was diagnosed with hydrocephalus.

Hydrocephalus is a very common disorder that affects 1 in 1,000 babies and it is the most common reason for brain surgery in children. There is no medical therapy to treat hydrocephalus, only surgery. There have been no significant advancements for shunts since the 1960s. In the 1st year,

there is a 50% chance of a failure and after year 2, there is an 80% chance of a failure in a shunt. When normal kids get sick, they go through the normal routine of OTC remedy's and maybe a doctor visit. When Josh gets sick, numerous x-rays have to be taken and a doctor visit is mandatory incase the shunt is malfunctioning.

Wayne State of Michigan does have a research facility close by and there was no type of support group to work with the families of the children who have hydrocephalus. Josh's mom, Emily, with the help of some other hydrocephalus mothers, did start a support group for these special needs kids and it has helped tremendously. Adding to the fact that there is no real insurance for this disease, this puts a tremendous toll on a family. It is an honor and privilege to know this little man as he is more courageous than other men I've encountered.

Joshua and other children (along with adults) should not have to endure an unstable shunt device.

When we decided to choose Hydrocephalus shunt research for our charity, the Sajor family jumped in along with the Trabilisy family and relatives to assist us with our fundraiser. Josh and Jake were really excited as well. These two families are a tremendous influence in the St. Louis community and they are involved in numerous aspects of our St. Louis church. Emily created some of our swag materials, a luggage tag and an arm bracelet (pictured below). Josh's grandmother, Nora Trabilisy, was instrumental in getting several raffle baskets put together for us. Nora elevated the prizes for the outing by handmaking 4 rosaries, 2 of which were dedicated to the KofC (also pictured below). As a side note, the cross used on the KofC rosaries had a thumbscrew on the bottom of the Crucifix and when removed, there is sand granules from the Holy Land in the Cross.

Dad & Mom: Jim & Emily Sajor, Brothers James and Jacob,
Grandpa & Grandma: Ed & Nora Trabilisy, Aunts Liz, Jackie and
Lisa, Uncles Ethan & Art, Cousins Andrea, and Katlyn were all
there to help us with the various functions that made this
outing such a great success. Jim Sajor, Ed & Art Trabilisy are

all Brother Knights in our Council and we are very proud to have them in our Council.

I would be remiss if I didn't mention Masters Joshua & Jacob Sajor (seen below). There really aren't enough words to describe what an inspiration Joshua has been to our Council. Here is a little boy who has gone through more than anyone should have to and his spirit is an enlightenment. We've watched this young man laugh, play, and be so humble that it will bring tears to your eyes. Josh is always so positive and thankful, that it is difficult to realize he has a serious condition. The sparkle in his eyes combined with the smile on his face is remarkable. There is no stopping Josh.

Now, as to Jacob. Jacob is unselfish in his love for his brother. Jacob watches over his brother and they are always laughing with each other. Both of them were all over the golf

course, having fun, talking to golfers, and putting smiles on everyone's face. It is easy to see that this family is one of the most loving and caring families one would want to know. So, when it came to deciding what charity, we wanted to support. Josh and Jacob made it really easy.

Joshua Says

Shunts Quit - I Don't

4. Selection Process

Recruiting was done through a volunteer process in both St. Hubert and St. Louis Parish Communities. The response was terrific and we had more than enough volunteers to assist in the success of the event.

The project name was inspired by Joshua's family and their personal efforts surrounding Hydrocephalus. The entire Sajor and Trabilisy families were thoroughly engaged in the whole event.

The planning of the event started at the beginning of 2021 with the core members of the golf outing team. Hole sponsorships and golfers were sought out and prizes began to start pouring in.

The impact to the community is a long term solution and this research may make a significant advancement that would help thousands live better lives, especially children.

The event will end on July 9, 2021 and the financials will be finished two weeks after the golf outing.

The team was set up by the core members of the event so that all aspects of the outing were covered and back-up personnel were in place for unforeseen incidents.

Correspondence was achieved by email, text, and personal contact with the Council members, public, and both church communities.

Recording was gathered, organized, and finalized by the lead chairperson of the event.

Finances and donations were received and documented by the Financial Secretary of the Council. Gift donations were collected by both St. Hubert's and St. Louis Knights from their respective churches.

Fund raising was done by the Knights of both churches and submitted to the Financial Secretary.

Media & Press Releases were done by Pat Carrier (widow of Past Grand Knight, Mike Carrier).

Friday, June 25, 2021

Pick A Posy!!

Our Drive-Thru Auction needs donations of particular items to be **Successful & FUN!!**

Check out our flower request baskets at the entrances of church.

1. Pick the Posy or Posies you'd be willing to donate to our Raffle Basket Creations.
2. Then Go Shop—SAFELY!!!
3. Drop the items off at the church office with the posies, the price of the item, and your name.

ITEMS NEEDED BY JUNE 3rd, 2021

We'll take it from there to create some eye popping baskets folks will just want to have.

We are also taking donations of wine, beer, liquor and mixers, as well as, soda's and other soft drinks for a Wheelbarrow of Cheer and a Snack Wagon.

Thank You!

BACK TO BASICS
with Fr. Bill

Presbyterians derive their name from the Greek word presbyteros, which means elder. They are so named because they are governed by elders or presbyters. John Calvin is responsible for laying the foundation of the church but the true founder was John Knox. He was ordained a Roman Catholic priest in 1530 but he became a protestant 15 years later. He became a strong opponent to the Catholic Church and studied under John Calvin. The Presbyterian Church found its way to Philadelphia in 1706. The church is responsible for founding Princeton University. In 1858 the church became known as the United Presbyterian Church. It was proceeded by many reformed churches throughout the New York and Pennsylvania. They believe that the last supper is a sign and a seal of blessed communion with Christ and with each other as members of His body. They believe that Christ is spiritually present in communion but not physically, as we believe. Women can be deacons but not an elder depending on which presbyterian church you belong to. They also have many splinter groups according to how liberal or conservative a congregation is. There is Evangelical Presbyterian, Orthodox Presbyterian, Presbyterian of America, Presbyterians of the USA and the Cumberland church in Kentucky. All churches are administered by the elders.

More next week.

FOR IMMEDIATE RELEASE

For more information, contact:

Erni Boulos, 586-747-5565, publicrelations11658@gmail.com

Macomb, MI - July 9, 2022 - The Knights of Columbus from St. Hubert's Council 11658 in Harrison Township will host an Annual Golf Outing at Cracklewood Golf Course, Macomb, MI. The event is open to all golfers and the proceeds will be donated to the Hydrocephalus Association for the research of Shunt development. For entry forms or additional information, please contact Erni Boulos, Outing Chairman, 586-747-5565 or erniboulos1952@gmail.com.

With more than 2 million members, the Knights of Columbus is the world's largest Catholic lay organization. It provides members and their families with volunteer opportunities in service to the Catholic Church, the community, families, and young people. In 2020, the Knights of Columbus at all levels of the organization raised and distributed \$187 million dollars to charity and rendered 77 million hours of volunteer service.

NO MORE BRAIN SURGERIES

WALK TO END HYDROCEPHALUS™

The **WALK to End Hydrocephalus™** is a national program for the Hydrocephalus Association (HA) in which more than 10,000 families gather in over 40 U.S. cities to raise money and awareness to end hydrocephalus.

HA is the largest non-profit organization focused solely on the challenges facing individuals and families living with hydrocephalus.

HA provides support, education, and advocacy to individuals, families, and medical professionals dealing with the complex issues of hydrocephalus.

HA also funds cutting-edge research on the journey to find a cure.

Since 2009, HA has funded \$6 million in research focused on 3 priority areas:

To date, HA-funded research has resulted in reduced shunt infections by 30%. Every dollar contributed towards HA's mission brings us closer to a world without hydrocephalus.

NO MORE BRAIN SURGERIES

WALK TO END HYDROCEPHALUS™

HOW YOUR DONATION HELPS

SUPPORT

- Connects people affected by hydrocephalus through local support networks in over 50 communities across the US
- Provides a toll free call line for questions and referrals and builds hope through ongoing engagement

ADVOCACY

- Supports engagement with Congress, the Federal government, NIH, and the Department of Defense to increase funding and promote policies for hydrocephalus research
- Fosters a cadre of grassroots activities to engage with elected officials on issues

RESEARCH

- Grows the hydrocephalus research community by funding scientists conducting high-quality, high-impact research into preventions and cures
- Brings the patient voice and perspective into hydrocephalus research through three research networks and our patient registry

EDUCATION

- Produces free educational materials for patients, families, hospitals, doctors, schools, and policy makers
- Informs the hydrocephalus community through newsletters, blogs, webinars, conferences, and workshops

of St. Hubert and St. Louis**

**38775 Prentiss, Harrison Township, MI
48045**

Our 25th Annual KofC golf outing is coming up in July. We always look forward to this event because it provides a great opportunity to get together with friends and enjoy the day at a beautiful golf course, and of course, play some golf.

The Knights of Columbus Council 11658 (tax ID number 38-3271725) is seeking funds or gifts for the annual charity golf outing benefiting Shunt Research for Hydrocephalus in Children which will be held on Saturday, July 10, 2021 at Cracklewood Golf Club in Macomb, MI. The donated items will be used as door and raffle prizes at the event.

This year we have chosen Shunt Research for Hydrocephalus in Children as the charity of choice to receive the proceeds from the golf outing. We chose this charity due to a 5-year-old boy who has had 8 brain surgeries because of shunts failing. In a world of modern miracles, surgeries should be minimal with a maximum of success.

Hydrocephalus is an abnormal buildup of fluid in the ventricles (cavities) deep within the brain. This excess fluid causes the ventricles to widen, putting pressure on the brain's tissues. Cerebrospinal fluid (CSF) is the clear, colorless fluid that protects and cushions the brain and spine. Normally, cerebrospinal fluid flows through the ventricles and bathes the brain and spinal cord before being reabsorbed into the bloodstream. The body typically produces enough CSF each day and absorbs the same amount. However, when the normal flow or absorption of CSF is blocked it can result in a buildup of CSF. The pressure from too much CSF can keep the brain from functioning properly and cause brain damage and even death.

The goal is to assist in the research that will dramatically reduce or eliminate shunt failures currently being seen in both adults and children. Thank you for your consideration in donating to this worthy cause.

Dear «FirstName»,

We have wonderful news, I wanted to inform you that our 25th Annual KofC golf outing has been rescheduled for 2021. The event is scheduled for Saturday July 10, 2021 at Cracklewood Golf Course. We hope that your business has had a chance to start recovery and continue going forward. Although we are still working through the current issues, we are optimistic that this year's golf event will tee off and with your continuous support will be another success.

*This year's charity is to support the research for Hydrocephalus, which is the most common reason for brain surgery in children. We currently have one of our Knights who has a grandchild that has Hydrocephalus and has had 8 brain surgeries and 1 spinal surgery for this disease, several because the shunts failed, and all this before the age of 4. In today's day and age, children should **not** have to go through something like this, let alone the impact to their families.*

Hydrocephalus is an abnormal accumulation of cerebrospinal fluid within cavities in the brain called ventricles. A shunt redirects the fluid away from the brain. As the year progresses, I'll be sending out more information on this issue so you have a good idea as to what we are focused on.

Please save the date for this year's golf outing and with the health restrictions being relaxed, you will begin to see our Knights out and about supporting your organization.

Sincerely,

Erni Boulos, Chairman

Thank You for Our Great Annual Golf Outing

I'd like to take the opportunity to thank all the golfers and guests that attended the Knights of Columbus Annual Cy Minnella Memorial Golf Outing on July 10th. This year's charity was for Hydrocephalus Shunt Research. It was truly a wonderful outing and so many folks attended for the golf and dinner. The food was great and, from all the feedback I received, entertaining with our long drive champion.

It takes a lot to put such a successful outing together and I'm so appreciative of the Trabilys and Sajor families that put so much time and effort into the event. This was very special to them, to the Knights, and especially to Josh who was our guest of honor and accompanied by his brother Jacob. The boys had a big smile all day long for our golf family. What a blessing to have these guys join us.

I would remiss if I didn't mention a big thanks to all the volunteers who made our guests so welcome and the golf outing would not have gone so smoothly had it not been for them. My sincere thanks to everyone who had a part in this wonderful outing. Last, but not least, this event could not have come together had it not been for my two partners in crime, Jim Lepere and Charlie Korpak. These two gents were instrumental in getting our sponsors and providing guidance that led to this fantastic event.

It always seems like a chore to pull one of these events off, but in the end, it is a wonderful feeling that we (the Knights) are following our founder, Fr. Michael McGivney in taking care of our community, those in need, and our Knight Family.

I am very thankful we had all of you, help us.

Vivat Jesus

Dear Donna,

On behalf of our Knights of Columbus, I would like to thank you for your \$100 gift certificate for our golf outing. This year's outing is for the research of Hydrocephalus Shunts which direct an accumulation of fluid away from the brain. Shunt surgery is the only option for those affected with this disease. Many children have to go through hundreds (yep, I said hundreds) of brain surgeries in their lifetime because of this shunt failing. Your support will aid in minimizing or eliminating this difficult process.

Over the last year the Knights of Columbus has given 75 million hours of charitable service and donated over \$177 million dollars in contributions to needy charities. We are very proud of the work we do and it can't be done without the continued support of folks like you.

***THANK YOU** for all the support and believing in us. We are very grateful you chose to help with this event.*

St. Clair Shores, MI 48082

Dear Kellie,

On behalf of our Knights of Columbus, I would like to thank you for your donation of 4 haircuts for our golf outing. This year's outing is for the research of Hydrocephalus Shunts which direct an accumulation of fluid away from the brain. Shunt surgery is the only option for those affected with this disease. Many children have to go through hundreds (yep, I said hundreds) of brain surgeries in their lifetime because of this shunt failing. Your support will aid in minimizing or eliminating this difficult process.

Over the last year the Knights of Columbus has given 75 million hours of charitable service and donated over \$177 million dollars in contributions to needy charities. We are very proud of the work we do and it can't be done without the continued support of folks like you.

***THANK YOU** for all the support and believing in us. We are very grateful you chose to help with this event.*

Sincerely,

Erni Boulos, Jim Lepere, Charlie Korpel

On behalf of our Knights of Columbus, I would like to thank you for your \$100 sponsorship of a hole sign at our golf outing. This year's outing is for the research of Hydrocephalus Shunts which direct an accumulation of fluid away from the brain. Shunt surgery is the only option for those affected with this disease. Many children have to go through hundreds (yep, I said hundreds) of brain surgeries in their lifetime because of this shunt failing. Your support will aid in minimizing or eliminating this difficult process.

Over the last year the Knights of Columbus has given 75 million hours of charitable service and donated over \$177 million dollars in contributions to needy charities. We are very proud of the work we do and it can't be done without the continued support of folks like you.

THANK YOU for all the support and believing in us. We are very grateful you chose to help with this event.

Sincerely,

Erni Boulos, Jim Lepere, Charlie Korpall
