

Casey Bear Pricing

The response to the Casey Bear program has been overwhelming this past fraternal year. When trying to order additional Casey Bears, we found out that the supplier is no longer in business. We located a new supplier, but the Casey Bears are different. The bears are 7.5" tall (somewhat smaller) and of course the price has increased. The bears come 24 (instead of 12) per case. So, effective immediately, the new pricing for the Casey Bears is:

- The cost for a case of 24 Casey Bears is \$230.00.
- Shipping cost, if needed, will be \$30.00. The cartons are smaller.

A picture of the old and new bear is below. We have the new bears in stock and are available for ordering.

Let's keep the joy in children's hearts by continuing this great program.
